

CATALOG NUMBER ..... 367214  
 APPLICATION ..... Volkswagen Eurovan, Van.  
 HITCH CAPACITY ..... 3500 pounds gross trailer weight 300 pounds maximum tongue load OR the maximum load specified by the vehicle manufacturer, WHICHEVER IS LESS.

NOTES: A. This hitch features a removable ball mount. This hitch is not intended for use as a weight distributing hitch. Before towing, the hitch pin and retainer clip MUST be in place securing ball mount to receiver.  
 B. This product complies with safety specifications and requirements for connecting devices and towing systems of the state of New York and regulation V.E.S.C. V-5.

1. This hitch is a three piece receiver design featuring a 1 1/4" square receiver and cross tube bolted to left and right frame plates. Frame plates bolt to existing weldnuts and holes in vertical section of frame rails and bumper brackets. One bracket mounted under rearmost bumper screw on passenger side is discarded. Temporarily remove spare tire.
2. On each side of vehicle, remove two bolts at location ①, attaching bumper bracket to frame rail. Mount frame plate (without receiver assembly) to frame rails aligning rearmost holes with existing weldnuts in bumper bracket. Loosely install fasteners ① as shown in diagram below. Note: It may be necessary to remove plastic clips holding wire bundle inside passenger side frame rail.
3. Loosely install fasteners ② as shown below in forward holes of frame plate. Note: use hex nut on passenger side and handle nut (#1604) on driver's side where access is a problem.
4. Mount receiver assembly between frame plates and install fasteners ③ as shown in diagram below.
5. Final tighten fasteners as specified on reverse of these instructions. Replace spare tire. Recheck all fasteners occasionally for tightness.

#### FASTENERS:

- ① (4) 12 x 1.5 x 35mm screw
